

General Price Adjustment – Effective April 1, 2023

Dear Lincoln/ORSCO Partner,

In response to unprecedented market conditions, SKF USA Inc (SKF) has incurred additional costs to produce products and will need to adjust pricing accordingly. Please be assured that we are doing everything possible to mitigate these adjustments.

Unfortunately, we are unable to completely negate them and will be implementing a variable price increase on selected products effective April 1, 2023.

Orders for reasonable quantities placed prior to April 1st for immediate delivery will be based on current prices. Orders placed on or after April 1 will be billed at the new 2023 prices.

To access the new price list online, follow these instructions:

- Visit www.lincolnindustrial.com
- From the home page, scroll down to the “Lubrication Support” section and select “Find out more.”
- On this Member LogIn Page, enter your User ID (your email address) and password. (If you do not remember your password, use “Forgot Password.”)
- Go to the main menu option on the left to “Price Info.”
 - **Download PDF files of the list prices.**

To request a net price file, please email lincoln.customer.service@skf.com.

We thank you for your understanding and look forward to continuing our successful relationship in 2023 and beyond. Please contact your local sales representative should you have any questions or need further information.

Best regards,

Tom Wieten
VP Lubrication NAM
SKF USA Inc.
